## 5 Kw Quindo 5000 Series (off-Grid)

**The Revolution in Wind Turbine Pricing has Started!**

The 'QUINDO 5000 SERIES' is a pitch controlled wind turbine system for 'Off and On-Grid' operation. This newly designed wind turbine system with its new 'pitch controlled' design will revolutionize the wind turbine market. With its highly competitive pricing, you will find it difficult to find a complete wind turbine system with a better \$ for KW ratio anywhere in the market.

The 'QUINDO 5000 SERIES' makes your entry into the Self-generating-energy-business a reality. High ROI (Return On Investment) can be achieved within 1-2 year. This 'workhorse' turbine is suitable to feed electricity to residential and business properties and to offset or sell excess electricity back to the grid.  
Generate a steady income year on year!

Energy companies will now pay up to 15p per kilowatt hour of energy generated in the UK and up to 25c in the US. The QUINDO 5000 Series Wind Turbine running throughout evening off peak periods could generate up to £15.00 (\$24.60) per night depending on wind conditions. Annual savings plus up to £6,000.00 (\$9,800) income per year.

Operating expectation is 20+ years. The complete system is easy to install and comes with a detailed installation guide. Aided by a simple design, the QUINDO 5000 Series makes service and maintenance easier than most other turbines in this kilowatt class. 'The QUINDO 5000 Series' provides a high degree of operational availability and comes with a 12 month warranty on the generator and 24 month on parts.

## 5Kw Quindo 5000 Series (Off-Grid)

### Technical Specification:

1m/s = 3.6 KM/H = 2.25 MPH

Rated power (kw)	5	Maximum power(KW)	5.4
Rated wind speed (m/s)	11	Speed regulation method	Adjustable-Pitch
Startup wind speed (m/s)	3	Generator style	3-phase AC PM
Working wind speed (m/s)	4-25	Tower height (m)	8
Survived wind speed (m/s)	50	Stop method	Backswept pitch
Rated rotate speed(r/min)	240	Main machine weight (kg)	340
Rotor diameter(m)	5.6	Guyed tower weight(kg)	350
Working voltage (v)	DC240V/AC220V	Free standing tower weight(kg)	650
Blades material*quantity	Fiberglass-Reinforced plastics*3	Annual generation Min/Max(kwh)	7500/22500
